“When we were planning our wedding, we knew we wanted something local and personal and Barbarella Beets had been recommended to us by our friend. From the first time I spoke to Shona I knew I wanted her to cater our wedding – we just got along and it felt like she really cared! And all her ingredients are locally sourced :)”

“For two months, four fussy eaters from four countries delighted in the mesmeric cuisine conjured up by Shona, chef par excellence, who operates under the alliterated handle Barbarella Beets. Most every chef can amaze once – one trick – one signature dish. But Shona’s verisimilitude is otherworldly. Vegan, fish, poultry, meat. Perfectly prepared from local producers. All delicious.”

“Barbarella Beets catered a birthday party for me recently and everything was absolutely brilliant! Food was amazing. Shona really knows her ingredients and talked us through possible menus to get something all the guests – children of various ages and adults – would enjoy. Hardest part was picking from such a great selection of dishes. Wanted them all! On the day, the guests all loved the food and Shona and Keisha really looked after everyone and made it very special. Can’t recommend them highly enough!”
